

Locating an item online via the searchable online catalog

Instructions

- Click on the link to the online catalog at <http://www.librarything.com/catalog/BFMLibrary> (or paste the URL into your browser).
 - A list, starting with the most recently cataloged items, will appear.
- You can browse the list or use the **highlighted "Search this Library"** box on the second line in the upper right corner of the page.
 - A drop-down menu to the right of the box allows you to define your search.
 - Type one or more keywords into the **highlighted "Search"** box.
 - A list of the items identified by the search function will appear.
 - [Note: the "search site" box in the uppermost right corner searches the entire *LibraryThing* website.]
- When you have found an item that interests you, click on its title. When the main page appears, click on "Details" on the left side of the page to display more bibliographic information about the item.
- For most of the selections, the "Work Details" link provides a Dewey number (DDC) that can be used to locate the item on the library shelf. If no Dewey number appears in the LibraryThing record, you will find it in the printed alphabetical listing in the library. (We are in the process of checking every LibraryThing record to add or correct its Dewey number as necessary.)
